Projects

GurukulEd Edtech platform

February 2024

- Developed GurukulEd, a dynamic online learning platform that enables educators to build personal brands while offering 100+ free and paid courses across various subjects. Presented the idea to the faculty and effectively conveyed its value and potential.
- Designed an intuitive UI that enhanced student engagement, leading to a 25% increase in course completion rates compared to traditional platforms.
- Integrated live sessions, interactive learning tools, and branding capabilities, bridging key gaps in India's online education sector and attracting 500+ active users within the first few months.
- Pitched the idea to faculty members, securing 100% buy-in and generating interest among educators.

E-Commerce Product Listing App

October 2023

- Developed a full-stack e-commerce platform that allows users to browse, search, and purchase products, featuring an intuitive UI and smooth user experience.
- Implemented secure authentication, enabling 100+ user sign-ups within the first month.
- Designed a responsive front-end, reducing page load time by 30%, leading to better engagement.
- Integrated cart & checkout functionality, streamlining the buying process and improving conversion rates by 20%.

Certificates

Python Data Mastery: From Fundamentals to Machine Learning

July 2024

LPU - [Certificate link](#)

The Bits and Bytes of Computer Networking

May 2024

Coursera - [Certificate link](#)
